

ESPID Early Career Opportunities

×

Build your career, take your research to the next level and improve your clinical practice throughout the year with these ESPID opportunities:

The Walter Marget Workshop (WMW) is over 2 half-days for trainees held every year in the days leading up to the ESPID Annual Meeting. The workshop is dedicated to the memory of Professor Walter Marget, who was a founding member of ESPID (1983). Professor Marget was a renowned paediatric infectious diseases clinician at the University Hospitals of Freiburg, Tübingen and Munich and was an influential mentor for many young paediatricians. [Learn More](#) The **ESPID Research Masterclass** (ERMC) is a closed, seminar type of forum for active paediatric infectious diseases (PID) research groups in Europe. The research performed can involve 'bench-type' basic and translational research, as well as 'bed-side' clinical studies (e.g. observational, case-control, randomized controlled, interventional) and epidemiological studies in any

area of paediatric infectious diseases.

The format of ERMIC is well suited for presenting work-in-progress as well as studies that have completed. You will gain feedback and input from other research groups, as well as senior research leaders in paediatric infectious diseases, on how to approach the research question, on study design and on presentation and interpretation of results. [Learn More](#) Bring your research, cases, and reviews to Lisbon to share your work with the world. [Join Here](#) The award will offer you free participation, and cover your travel expenses to Lisbon as well as your hotel stay during the meeting days. [Apply Here](#)

The Young ESPID Symposium is a debate where both speakers and coordinators are Young ESPID members.

[Watch 2022's Young ESPID Symposium](#)

Furthermore you can join [Young ESPID](#) – a group of members who are in training and early career or have completed training to become a paediatric infectious disease specialist <3 years ago.

There are many more early career opportunities
on the **ESPID website**

But the **ESPID Annual Meeting** is where all journeys begin!
