

Forgotten Wisdom 2022

The Most Important Studies You Should Know About

Some things are too important not to share, which is why you can enjoy the next free session from **ESPID 2022** now.

We asked senior ESPID members which publications, from throughout the ages, were instrumental to the field of paediatric infectious diseases and what we can learn from them today.

At ESPID 2022, Steven Black (USA) presented the following Forgotten Wisdom paper:

- [Safety and immunogenicity of oligosaccharide conjugate Haemophilus influenzae type b \(HbOC\) vaccine in infancy \(click here to view the paper\)](#)

At ESPID 2022, Karina Butler (Ireland) presented the following Forgotten Wisdom papers:

- [The efficacy of azidothymidine \(AZT\) in the treatment of patients with AIDS and AIDS-related complex. A double-blind, placebo-controlled trial \(click here to view the paper\)](#)
- [Reduction of maternal-infant transmission of human immunodeficiency virus type 1 with zidovudine treatment. Paediatric AIDS Clinical Trials Group Protocol 076 Study Group \(click here to view the paper\)](#)

At ESPID 2022, Susanna Esposito (Italy) presented the following Forgotten Wisdom papers:

- [Comparative study of once-weekly azithromycin and once-daily amoxicillin treatments in prevention of recurrent acute otitis media in children \(click here to view the paper\)](#)
- [Updated Guidelines for the Management of Acute Otitis](#)

[Media in Children by the Italian Society of Paediatrics: Treatment \(click here to view the paper\)](#)

- [Antimicrobial stewardship in paediatrics \(click here to view the paper\)](#)

At ESPID 2022, Ulrich Heininger (Switzerland) presented the following Forgotten Wisdom paper:

- [The effect of investigator compliance \(observer bias\) on calculated efficacy in a pertussis vaccine trial \(click here to view the paper\)](#)

At ESPID 2022, George Syrogiannopoulos (Greece) presented the following Forgotten Wisdom papers:

- [Dexamethasone Therapy for Bacterial Meningitis \(click here to view the paper\)](#)
- [Pneumococcal Meningitis in Adults: A Prospective Nationwide Cohort Study Over a 20-year Period \(click here to view the paper\)](#)

At ESPID 2022, David Greenberg (Israel) presented the following Forgotten Wisdom papers:

- [The Occurrence of Carriers of Disease-Producing Types of Pneumococcus \(click here to view the paper\)](#)
- [Varieties of Pneumococcus and their relation to labour pneumonia \(click here to view the paper\)](#)
