

Your Introduction to #ESPID 2022

An ESPID Meeting is more than a paediatric infectious diseases conference, it is a community to develop as a professional throughout your career as well as an opportunity to enhance your broader scientific and medical knowledge.

Updates on #PedsID research, trials, treatments, and future expectations.

All you need on anti-microbials: vaccines, antibiotics, antifungals & more.

Meet the experts – They want to meet you! Plus build connections for life.

Get inspired! Hear other's research, share yours, recharge your batteries
